# PRESIDENT'S SPARK

On Thursday, April 12<sup>th</sup> the Chapter hosted its Annual Seminar and Trade Show. By all accounts, the event was a complete success. The committee has heard overwhelmingly positive feedback. Thanks to all attendees, the vendors who participated, and our excellent speakers. As you know, this event was started anew last year in an effort to increase our scholarship fund and to provide a venue for networking among fire protection professionals in the Philadelphia-Delaware Valley. We've been successful on both counts and we look forward to continuing to improve the event in the coming years.

Our May meeting is an opportunity to take a break from our regular monthly meeting format to honor our scholarship award winners and dedicated chapter members, to socialize, and to elect our slate of officers for the next year. We will hold the meeting at the Great American Pub. Please join us.

It's been a pleasure to serve as chapter president the past year, and my honor to work with a Board that is dedicated to improving every aspect of our local professional Society. I'm excited by the progress we made the past year in advancing our on-line presence, networking with our affiliates, increasing our meeting attendance, and reaffirming our presence as an Incorporated Chapter of SFPE. Kudos to the entire Board: Steve Oliver, Jerry Forstater, Ben Young, Kate Lawler, Jack Fairchild, Jay Stough, Dyllon Slatcher, Dave Kriebel, John Spitz, and Past President Bob Moser.

Yours in fire safety,

Jeff LaSalle

## 2018 SFPE Delaware Valley Trade Show/ Seminar a Huge Success!

On Thursday April 12<sup>th</sup>, the Philadelphia Delaware Valley Chapter hosted the annual Trade Show and Seminar at the Double Tree Hilton in King of Prussia. 35 Vendors had tables in the Exhibit Hall, while 12 professionals gave separate presentations throughout the day. Over 100 people in the fire protection market attended the event. The attendance helped SFPE donate a total of \$17,528 to scholarship funds that promote our industry! Wow! The fire protection industry needs MORE good people in it, and although the scholarship fund helps tremendously, everyone (you!) needs to do their part by promoting the industry to young or interested candidates looking for a rewarding career.

The success of this event is attributed to a small group of folks in the industry that take their personal time to promote the fire protection industry by Giving Back. *Special Thanks* go to Seminar Committee members: Dave Winder, Jack Fairchild, Jay Stough, Ryan Schartel, Dyllon Slatcher, and Gary Lederman. Thanks also go to current and past Board members, and the many vendors that participated, to make the event successful. If you would like to become involved in SFPE, please speak with any of the current Board Members.

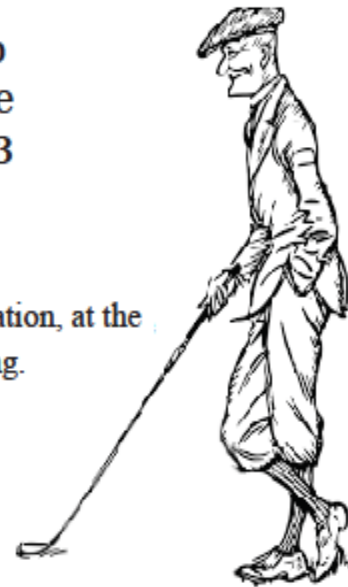

Please send any improvement suggestions for the Seminar/ Trade Show event to Steve Oliver ([soliver@oliverfps.com](mailto:soliver@oliverfps.com)).

As we approach our next season of SFPE monthly meetings, starting in September after our May awards meeting, please also provide suggestions (to [soliver@oliverfps.com](mailto:soliver@oliverfps.com)) regarding speakers and what you would like to learn. Our goal is to host informative sessions that promote our industry and the desire to provide continuing education. We have seen our chapter grow over the past couple of years, and would like to continue that growth by providing what members need to stay relevant and up to date in our ever changing fire protection industry.

# GOLF OUTING

Wednesday May 23, 2018

Westover Country Club

# From Horses to Horsepower

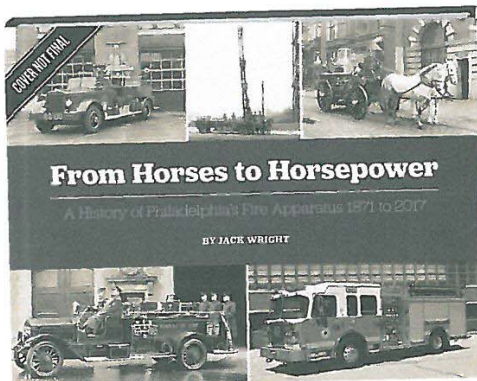

A History of Philadelphia's Fire Apparatus 1871 to 2017

presented by

Hardcover, 272 pages, archival quality • Hundreds of stunning historic images  
Limited edition, collector's item • Ships July 27

**Announcing a special book:** Fireman's Hall Museum is pleased to present "From Horses to Horsepower – A History of Philadelphia's Fire Apparatus 1871 to 2017." This book truly captures the evolution of the Philadelphia Fire Department's fleet of fire engines, from the inception of the paid professional department during 1871, utilizing horse-drawn equipment outfitted with steam-powered pumps, to today's diesel-powered apparatus. Combining text and historical photographs, the reader can learn about the trials and triumphs faced with providing fire protection to one of the largest cities in the United States.

### *MISSION STATEMENT*

*The Philadelphia/Delaware Valley Chapter purpose is to advance the science and practice of fire protection engineering and its allied fields, to maintain a high ethical standard among its members and to foster fire protection engineering education.*

*Recognition of fire protection engineering as a discrete engineering discipline is a prime goal. Engineering disciplines exist because there is a special body of knowledge based on the fundamentals of mathematics, physics, chemistry, engineering science and economics.*
